

INNOVATION STARTS HERE

KLIS Primary is a brand new school located in Sentul that provides students with a world class standard of education whilst guided by righteous Islamic principles and values.

Our Curriculum Is Raising The Standard

Three vital components constitute the KLIS Primary curriculum. The Cambridge Primary framework forms the basis. Islamic and Quranic studies are consistent throughout, and we have incorporated segments which are essential on a national level. As a whole, our curriculum embodies who we are and the standards we strive to achieve. It provides a clear, structure which allows us to continually assess our students' performance and adapt in accordance with our learners' needs. Progress is measured by the following benchmarking assessments :

● Progression Tests

These are internal assessment tests marked by our teachers to assess our students' knowledge and skills in English, Maths, ICT & Science.

● Checkpoint Tests

These are external assessment tests marked by Cambridge International Examiners. They provide a cumulative measure of performance and students are awarded a statement of achievement.

● Junior Al Hafeez Test (minimum 2 juz)

● UASBN - National Examination

KLIS Primary Education is built on solid foundations:

✓ World Class Cambridge Primary Curriculum

For the core subjects : English, Mathematics and Science, KLIS follows the outstanding Cambridge Primary Curriculum. This offers a structured yet flexible framework which will ensure each student is driven and inspired to reach their maximum potential.

✓ World Language Studies

Understanding the importance of language in today's world, KLIS Primary students are taught English as a first language and Arabic as a second language.

✓ Islamic, Quranic Studies & Moral Education

Built upon a series of value-based themes, the focus of our Islamic and Quranic Studies is to familiarise students with righteous Islamic beliefs and practices, and to enhance their understanding of the practical dimension of their faith.

✓ Young Scientist Program

Acting as a bridge towards further STEAM (Science, Technology, Engineering, Arts and Mathematics) centred learning, our YSP develops curiosity about the world we live in & promotes a desire to learn new things.

✓ Social Studies & Life Skills

At KLIS we lead and encourage our learners to explore the physical world and promote communication and interpersonal skills among others. Life skills for primary learners focus on problem-solving, creative thinking, self-awareness, empathy and decision making.

✓ Physical Education & Endurance Skills

Developing active bodies and active minds is a core function at KLIS primary. We offer a comprehensive physical education program consisting of Swimming, Futsal and Basketball. Plus we have a special activity play area for students, too.

What Facilities Do We Offer ?

KLIS Primary is equipped with facilities that provide our students with hands on experience, engagement, excitement, wonderful learning and growth in achievement, namely :

- ✔ Library
- ✔ Prayer Room
- ✔ Computer Lab
- ✔ Well Equipped Music Room
- ✔ Swimming Pool
